

## **DISCO online now available for accredited DISCO Professionals**

The NAS Lorna Wing Centre is recognised internationally for its pioneering work in the diagnosis of autism and related conditions and for providing advanced training to fellow practitioners on specialist diagnosis and assessment.

We are delighted to launch the DISCO (Diagnostic Interview for Social and Communication Disorders) online. This is available to all professionals trained and accredited in the use of DISCO. DISCO online has primarily been designed to maintain the accuracy of the DISCO assessment whilst maximising your time and resources.

### **Benefits of using the DISCO online are:**

- Combines your manual, record form and algorithms
- Access to notes for report writing
- Easy analysis of cases for research
- Immediate and accurate diagnosis

### **Key features of the DISCO online include:**

- Annual licence fee includes updates
- Colour coded fields to highlight all algorithms for ICD-10, DSM 5 and counts
- Includes support
- Simple navigation
- The programme mirrors the DISCO manual and report form
- Runs on windows XP and above

**“Saves time, easy to use and paperless”** *from a satisfied user*

### **Fees**

DISCO online costs £350 + VAT which includes the first years licence fee. Thereafter, to renew your annual licence it will cost £75 + VAT

If you are purchasing more than one copy for your organisation, please contact us for special discounts.
