and projects**

## **ROBERT OGDEN SCHOOL RECYCLED POP UP SHOP NEXT EVENT: VENUE:**

**Students at The Robert Ogden School (for Autistic children) have been hard at work making all sorts of wonderful things!**

The young people within the school have been busy making and selling various crafts made from various recycled materials. This is to enable young people to gather skills for employment once they leave school. Autisan Recycled Pop-Up Shop also supports other projects in school such as Enterprise, Green Club and Autisan Fudge.

All items we sell are handmade by students on site, and we hold the pop up shops to sell items, with half of the proceeds going to the venue, and half going back into making more things!
