We provide support to maintain healthy lifestyles, medication and personal care, as well as overall support to develop health action plans.

The house consists of a dining room, kitchen, lounge, laundry room, conservatory and quiet room. Each bedroom has their own sink, bed and built in wardrobe. There is a hobbies room in the centre of the building giving the residents three different communal areas. There are two bathrooms with baths and showers upstairs with two further toilets downstairs. The house has a large garden.
